

- DC to AC Propulsion System for Battery Powered and Series Hybrid Vehicles
- Optional 24VDC 75A isolated power supply or 2nd Inverter for auxiliary equipment
- Suitable for off road vehicles and airline FBO equipment
- Same model will operate from 160VDC, 240VDC or 320VDC Battery supply
- Protected against output short circuits
- Electronic Motor Thermal Overload Protection

ATS Part Number: A300730 - Dual Inverter - A300732 - Inverter and Aux Supply

Battery Voltage	Propulsion Motor Voltage	Propulsion Motor Continuous HP Rating	Propulsion Motor Peak HP Rating
180VDC	90VAC	30HP	90HP
240VDC	135VAC	45HP	135HP
320VDC	200VAC	65HP	195HP
